PUNNANA HARSHAVARDHAN NAIDU

B.TECH STUDENT

SUMMARY

Detail-oriented and analytical Computer Science student with strong foundations in software development, backend database management, and data structures. Hands-on experience building functional prototypes and database systems using Java, Python, and SQL. Proven leadership, discipline, and teamwork capabilities developed through intensive training in the National Cadet Corps (NCC). Seeking a software engineering or backend development opportunity to leverage technical skills and solve complex problems.

TECHNICAL PROJECTS

Lectronote

Lead Developer | April 2026 – May 2026

Designed and engineered an innovative education- focused prototype featuring user class registration, interactive calendars, and integrated accessible learning features.

Prototype: https://lectronote-jfv.caffeine.xyz/

GVMC File Tracking And SLA System (Prototype)

Full Stack Developer | Hackathon

Developed a centralized, role-based municipal file tracking portal for the Greater Visakhapatnam Municipal Corporation to digitize application workflows, enforce Service Level Agreements (SLAs), and eliminate bureaucratic delays.

Form Compilation and Notification System (Prototype)

Full Stack Developer | July 2026 -Present

An automated workflow and notification engine designed to eliminate response latency in Google Forms. The platform synchronizes live form submission payloads, compares them against configured responder rosters using a real-time diffing algorithm, and automatically dispatches template-based channel reminders to non-responders based on customizable schedules.

EDUCATION

Lendi Institute Of Engineering And Technology
2024-Present

B.TECH- Computer Science And Engineering

Sri Viswa Junior College
2022-2024

Intermediate-96.7 Percenetage

SKILLS

Programming Languages: Java, Python, C++

Database & Backend Management: SQL,NoSQL,MySQL, JDBC
(Java Database Connectivity)

Libraries & Frameworks: Seaborn (Data Visualization), java.sql

Core Concepts:Relational Database Management Systems (RDBMS), Object-Oriented Programming (OOP)

Communication: Versant English Test for India (Pearson) – Certified Level 5 (Intermediate - High).
